PROFILE STATEMENT

Master's Student with 2 prior internships in AI Dev & Data Engineering. Skilled in optimizing complex workflows to drive immediate team efficiency. Seeking a 6-month international graduation internship in Artificial Intelligence starting April 2027.

EDUCATION

Master's Degree in Computer Science and Microelectronics – Mines Saint-Etienne Sep 2024 – Oct 2027 | Gardanne, France

- Ranked 11th among French engineering schools.

PROFESSIONAL EXPERIENCE

XRAYS Trading: AI Engineer Internship – End-to-End AI Development
Apr 2026 - Aug 2026 | Paris, France

- Developed an AI-powered NLP application from scratch to automate competency table completion from CVs, saving up to 3 days in the overall recruitment process
- Fine-tuned a Named Entity Recognition (NER) model to identify technical and financial market skills relevant to XRAYS
- Developed an end-to-end Python pipeline and web interface integrating CV preprocessing, model inference and competency table generation
- Containerized and prepared the application for deployment using Docker and Kubernetes, delivering a production-ready solution

EDF: Python Development Internship – Geotechnical Data Engineering
Jan 2025 (1 month) | Aix-en-Provence, France

- Developed a Python program to analyze soil settlement beneath French nuclear power facilities
- Processed over 50,000 records to extract, clean, and visualize geotechnical data

TECHNICAL PROJECTS

Portfolio Highlight: ETFolio (Personal Project)

- Built an automated ETL pipeline to collect, clean, and merge historical market data for the iShares EURO STOXX Banks 30-15 UCITS ETF from multiple exchanges
- Engineered technical indicators as features for machine learning models predicting short-term ETF price movements and generating buy/wait/sell signals with confidence scores
- Developed an interactive Streamlit dashboard to visualize price trends, technical indicators, and model predictions, with daily data updates automated through GitHub Actions

EXTRACURRICULAR ACTIVITIES

Organization of Mines Saint-Étienne Career Fair: Corporate Relations Coordinator
Apr 2025 - Mar 2026 | Aix-en-Provence, France

- Coordinated a team of 7 people in charge of business outreach and prospecting
- Responsible for contacting, following up with, and coordinating partner companies
- Actively managed event-day operations at the Aix-en-Provence Congress Center, bringing together 43 companies and over 400 students

SKILLS

- **Technical Skills:** Python (OOP, Data Processing, NLP), Machine & Deep Learning, Git, SQL, Docker, Kubernetes, C/C++, Java, Linux, R, Excel (MOS: Excel Expert), Web (HTML/CSS, TypeScript)
- **Soft Skills:** analytical mindset, autonomous, resourceful, detail-oriented, fast learner
- **Languages:** French (Native), English (Fluent - C1, TOEIC 945/990), Spanish (Intermediate - B1)

INTERESTS

Sports (keep-fit and running), International travel (e.g., 2-month trip in Mexico), Stocks
